Re: Release of the Rating Board's Classification Digest Application

Members of the Rating Board:

I am pleased to inform you that the Rating Board's new Classification Digest application has been released today, Friday, October 12, 2018.

The Classification Digest is a robust web-based application that provides users with access to class code information, such as current rating values, historical rating values and pure premiums, through an intuitive interface. The Classification Digest has replaced the Class Code Search function on the Rating Board's website.

To access the Classification Digest, please visit the "Online Services" tab on the Rating Board's homepage, [www.nycirb.org](http://www.nycirb.org), and then select "Classification Digest."

It bears mention that the Rating Board is currently in the process of rewriting the New York Workers' Compensation and Employers' Liability Insurance Manual ("Manual") and anticipates releasing a new edition of the Manual in 2019. The Classification Digest is designed to map to the classification section of the new edition of the Manual, and accordingly, until it is published, some fields within the "General Information" section of the application may contain "no information." I appreciate your patience in this regard.

If you have any questions, please contact Rose Bajrami at [rbajrami@nycirb.org](mailto:rbajrami@nycirb.org).

Very truly yours,

A handwritten signature in blue ink, appearing to read "JA", is written over a faint, larger signature.

Jeremy Attie  
President and CEO
